ORDER

In G.O.Ms.No.3035, Development dated 4th June 1949, the Government ~~orde~~ have ordered that the Fishermen's Cooperative Societies should distribute yarn only to their members and that non member fishermen should get their yarn through normal trade channels. The Director of Fisheries has now reported that these orders have hit hard fishermen who are not members of the cooperative societies and suggests that pending the issue of final orders by Government on a scheme submitted by him for subsidized sale of yarn etc. to fishermen through the agency of cooperative societies, all Fishermen Cooperative Societies which are financially strong and are well managed should be allowed to distribute yarn to non-members also. The Govt. approve their suggestion of the Director. The Govt. also agree with ~~suggestion of the~~ the R.C.S. ~~Director.~~ ~~The~~ that as a general rule fishermen who want ~~to~~ to enjoy the benefits available to members of the cooperative societies should also be prepared to share the responsibilities and liabilities attached to the working of these societies, by joining them as members. They therefore direct that all officers of the Fisheries and Cooperative Departments who come ~~time~~ into touch with fishermen, should take all necessary steps to encourage as many of the non-member/ fishermen, as possible, to come into the cooperative fold.
